'76

### **Outstanding Quality in Fiberglass Boats.**

We at Sea Ray Boats are proud to present to you our 1976 line of high quality fiberglass boats. This is our seventeenth year of production, and when we introduced the first Sea Ray back in 1959 it was never our intention to be the biggest boat manufacturer—just the best.

This policy has served as our doctrine, and although we have become one of the largest pleasure boat builders in the world, we have never sacrificed our dedication to being the very best. In the construction of each Sea Ray Boat we use the finest materials available. Our strong, rugged hull construction is second to none and provides exceptional seaworthiness

and a solid, smooth ride. Thump the side of a Sea Ray hull and compare the solid feel against that of other brands of fiberglass boats.

All Sea Ray Boats comply with standards set by the United States Coast Guard and have been inspected for compliance with the safety standards set by the Boating Industry Association.

In addition to BIA certification, Sea Rays are designed and engineered in accordance with numerous other BIA and American Boat and Yacht Council recommended practices.

Sea Ray Boats are produced in three modern boat

building facilities and are distributed to dealers throughout the United States, Europe, South America and Asia. We are just as proud of our dealer organization as we are of the design and construction of the boats themselves. Before receiving a Sea Ray franchise, each dealer must be able to show superior qualifications in business management, facilities, customer service and boating leadership in his community. This selective policy has resulted in better boating enjoyment for you—the Sea Ray owner.

We invite you to inspect the 1976 Sea Ray line on the following pages. It's our best ever. Then visit your local Sea Ray dealer and let him help you select the model that's just right for your needs.

OXFORD, MICHIGAN is our original home dating back to 1959. This plant has grown to become one of the largest and most modern fiberglass boat factories in the world, serving Sea Ray customers throughout the Midwest, East, and South

PHOENIX, ARIZONA is the location of our Western manufacturing facility. We began operations here in 1968, and in the spring of 1971 expanded into a brand new factory designed specifically for boat manufacturing.

MERRITT ISLAND, FLORIDA is Sea Ray's newest site and the factory in which all 300 Series Sea Rays are manufactured. Also housed here is our design and development department; the mild climate and our waterfront facilities affording year-round testing capability.

For a period of one year from the date of delivery to the original retail purchaser, SEA RAY BOATS warrants each SEA RAY BOAT to be free from defects caused by faulty workmanship or materials.

During this period, warranty repairs will be made without charge by SEA RAY BOATS at one of their manufacturing plants, or at SEA RAY's option, by an authorized SEA RAY dealer at the dealer's store or service center. Transportation costs to the SEA RAY manufacturing plant or to the authorized SEA RAY dealer's service center are the responsibility of the purchaser. All warranty repairs must be approved by an authorized SEA RAY representative.

Engines, outdrives, propellers and controls are covered by the warranties of the manufacturers supplying these units, and not by the provisions of this warranty.

This warranty does not cover used boats, windshield breakage, gelcoat or upholstery damage, or boats or parts which have been altered or subjected to misuse or negligence.

The obligation of SEA RAY BOATS under this warranty shall be limited to the repair or replacement of any part which is judged defective by SEA RAY BOATS. SEA RAY BOATS WILL NOT BE LIABLE FOR HAUL OUT, LAUNCH, TOWING OR STORAGE CHARGES, INCONVENIENCE OR LOSS OF TIME OR INCOME, OR ANY OTHER SPECIAL OR CONSEQUENTIAL DAMAGES OF ANY KIND OR NATURE. IMPLIED WARRANTIES, IF ANY, SHALL BE LIMITED TO THE DURATION OF THIS WRITTEN LIMITED WARRANTY.

The information contained in this literature is based upon the latest product information available at the time of publication approval. Sea Ray Boats reserves the right to make changes at any time, without notice in the colors, equipment, specifications, materials, hulls and prices—and also, to discontinue models. When changes are made, we reserve the right to do so without incurring the obligations to equip or modify existing models built prior to the date of such changes.
